# Digital Transformation

## The Leadership Edge

Pascal Giraud  
Senior Director  
EMEA Technology

# Enterprise Computing Trends

## GLOBALIZATION

**15 Billion**  
Internet Devices  
expected in 2015

**50 Billion**  
by 2020

## DATA EXPLOSION

**90%**  
Created within  
Last Two Years

**50X Growth**  
by 2020

## RISE OF MOBILITY

**6 Billion**  
Mobile Subscribers

**87%**  
of World's  
Population  
Mobile Data  
Growing **78%**  
CAGR

## CLOUD

**90%**  
of new software  
delivery for public  
cloud

Public IT cloud  
services will grow to  
**\$107B** in 2017

## MODERNIZE TO SURVIVE

Lots of  
**20 year-old**  
Legacy  
Applications

Bridging technology  
transformations overtime

And whatever comes next...

Connected experience and  
freedom to work from anywhere

Securely accessing the important things

Sharing and collaboration regardless of location  
It's about new possibilities, redefining how  
businesses run and people work

Democratizing information access and  
providing real-time insights for all

Spanning premise and cloud,  
because information lives in both

A construction site at sunset. A large crane is lifting a massive, curved concrete slab into place. The structure is surrounded by scaffolding. The sky is a mix of orange and blue.

So how  
we do it

(it takes many pieces  
working together)

Would you architect your  
enterprise this way?

(Silos aren't good for business)

# Connected layers

sum

Focus on  
what  
matters  
most

(Don't assemble information, take advantage of it)

# New Market Expectations of a Cloud Provider

**SIMPLE TO USE & CONSUME**  
**LOW RISK GO-LIVE**  
**TRANSPARENT *FAST***  
**PRICING *CLOUD***

**START SMALL**  
**IMMEDIATE VALUE**  
**80% USE CASE**  
***KNOW MY BUSINESS***  
**APPS & PARTNERS INTEGRATED**  
**BEST PRACTICES**

A photograph of two men in a modern office setting. The man on the left, with grey hair, is wearing a blue and white checkered shirt and is gesturing with his right hand while speaking. The man on the right, with dark hair, is wearing a blue and white checkered shirt and is listening attentively. They are sitting at a table with white mugs. The background shows a glass-walled office with other people and lights.

“Hey, we need to  
**innovate** —  
why is IT in  
the way?”

“How can IT innovate  
while we’re busy just  
keeping the  
business  
running?”

Cloud computing  
will lead to termination  
of IT jobs.<sup>1</sup>  
Hewlett Packard

IT will become the  
guardian of legacy.<sup>2</sup>

# WHAT counts as innovation?

- Introducing a new service
- Making the customer experience better
- Finding a better process that boosts productivity and saves money
- Finding a better way to collect ideas

# IT can be the driving force

- **Accelerate innovation:**  
Front office, back office, LOBs, partners, suppliers, customers
- **Innovate within IT:**  
Better processes, better services

# Oracle Strategic Investment, Uniquely Co-Engineered

# Oracle Cloud Platform: Extend SaaS Applications

## Unified PaaS platform to extend SaaS

- ▶ **Tailor applications to your business needs within SaaS**
- ▶ **Enrich, Connect, Mobilize and Secure apps with PaaS**
- ▶ **Integrate with PaaS across cloud, premises, mobile, IoT, and 3rd party apps**
- ▶ **Analyze with PaaS data from SaaS and other sources**

# Industry's Most Comprehensive Cloud Platform Strategy

**Bring Oracle's leading Database and Middleware Technology Software to customers and partners anywhere in the World through the Internet**

## EXTEND and INTEGRATE SaaS with PaaS

- Avaya needed a way to better manage partner ecosystems (their current SaaS offering required costly customizations)
- Using out of the box functionality in Oracle Sales Cloud Partner Relationship Management (PRM) along with Java Cloud Service as extensions, Avaya eliminated highly customized PRM module in competing SaaS product
- Using Integration Cloud Service they simplified the integration of Oracle and 3<sup>rd</sup> party SaaS applications

30%

Ongoing cost reduction for original SaaS implementation

## EXADATA as Digital Enabler

- Garmin understands that you can't rest on your laurels—you have to keep innovating and expanding and evolving. So they keep branching out and testing new ideas
- Garmin Connect is enormously popular today. More than two million people use it. Those people have logged more than two billion miles on Garmin Connect—which translates to more than 64 million pounds of candy burned, according to their website.

46%      20% - 50%

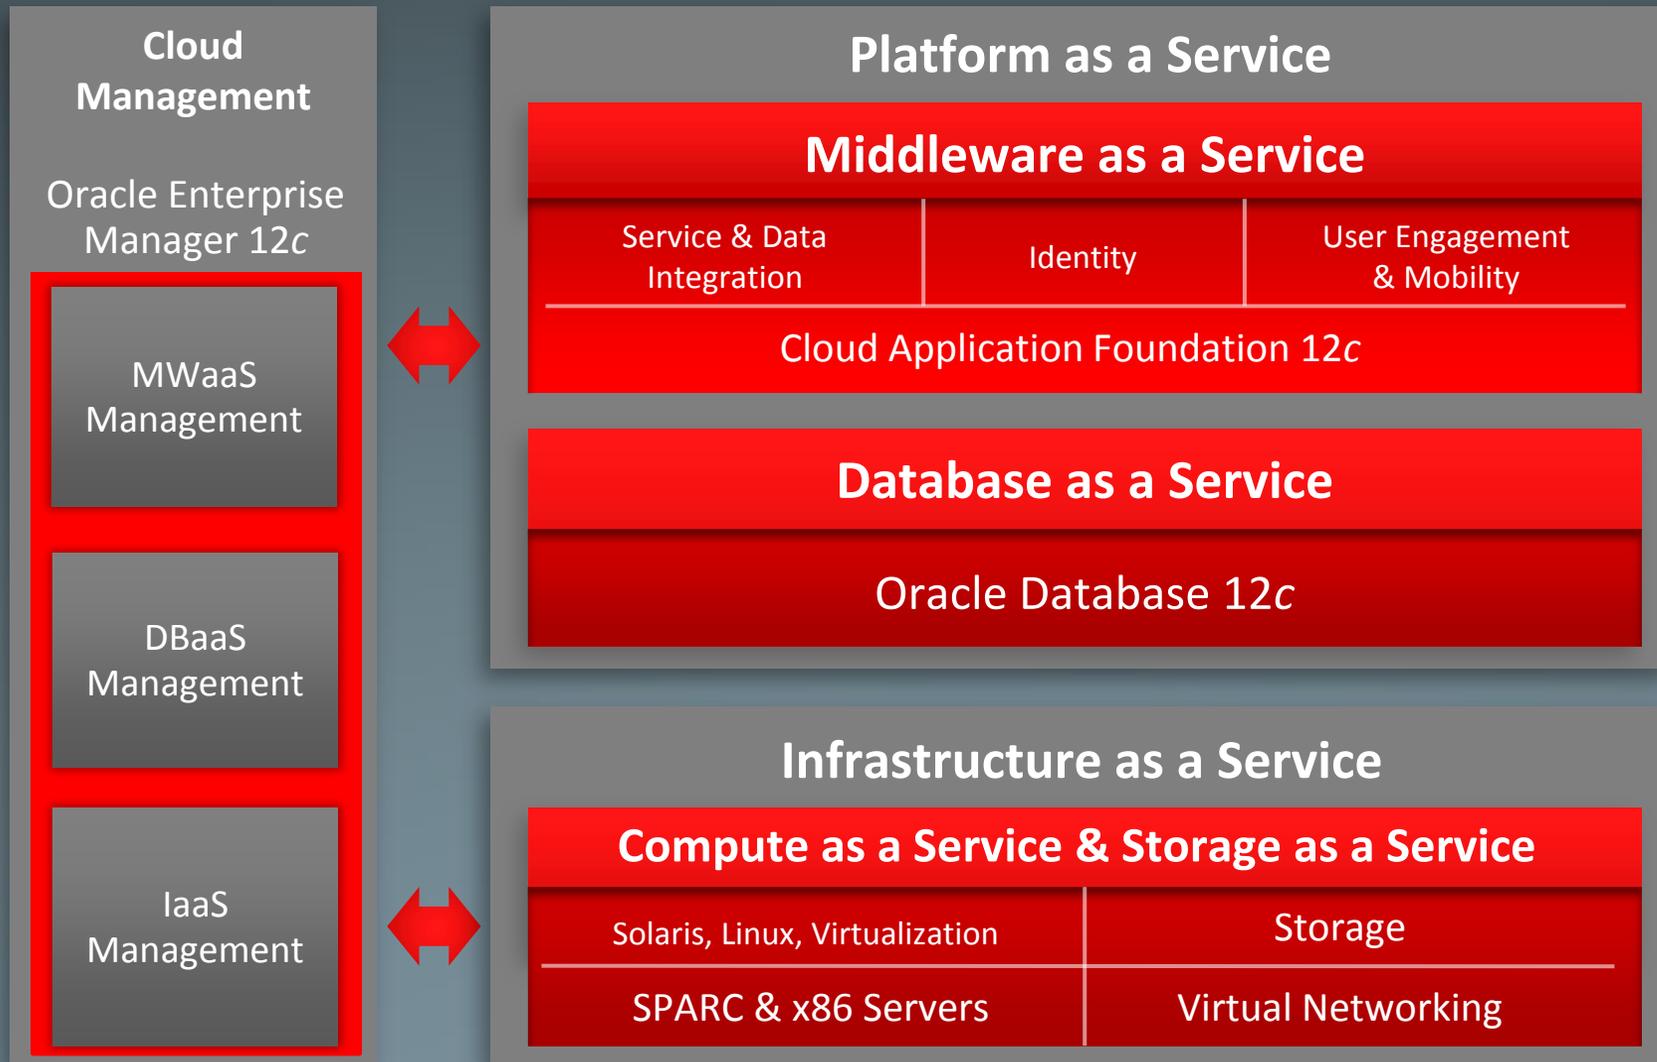

On top 20 critical concurrent batch jobs now run on average 46% faster

performance gain in their Advanced Supply Chain Planning (ASCP) reporting cycles

**Revolution,  
Not Evolution!**

A red biplane with the word "ORACLE" written vertically on its upper wing is flying over a coastal landscape. In the background, a suspension bridge is visible, and the scene is bathed in a warm, reddish-orange light. The text is overlaid on the top left of the image.

A unified stack, a technology and solution continuum...  
...spanning applications, premise and cloud

For wherever  
you might be  
on your  
transformation  
journey

**ORACLE®**
